SUMMARY

Full Stack developer with experience working on both front-end and back-end projects. As a technology enthusiast who has lived in six countries and has a passion for travel, I am always seeking to learn and develop new skills and stay on top of industry trends.

SKILLS

Front-End Tailwind | Bootstrap | React | CSS | HTML5

Back-End Javascript | NodeJS | Express | React | Angular | TypeScript

Database MongoDB | MySQL

Payment Gateways Square

Version Control Git | Github

Software Development .NET | WPF | C#

WORK EXPERIENCE

Jun 2022 - Present

Freelance Web Developer Fiverr, ON

- Designed and developed web themes and templates for E-commerce platforms such as Shopify, ensuring visually appealing and user-friendly designs.
- Developed and customized websites using Node.js, TypeScript, JavaScript, and React.
- Supported ongoing maintenance and implementation of new solutions based on client feedback and requests.
- Leveraged GitHub as a version control system to efficiently manage and share code with clients, ensuring collaboration and seamless workflow throughout the development process.
- Developed client relationships and maintained websites saving customers 20% of maintenance costs.

PROJECTS

Link to Projects: tinyurl.com/RRsystemProjects

- **Framework:** Node.Js Express
- **Languages:** HTML CSS JavaScript
- **Description:** Developed a personal portfolio website using Node.js, Express, and MongoDB. Implemented Express for handling HTTP requests and routing. Utilized MongoDB with Mongoose for data storage and retrieval. Integrated user authentication and authorization using Passport and passport-local. Employed EJS as the templating engine for dynamic content rendering. Maintained efficient code organization and version control using Git.

• **E-Commerce Website - Outdoorsway** **2023**

- **Framework:** Node.Js Express
- **Languages:** HTML CSS JavaScript
- **Description:** This platform provides users with a seamless shopping experience, allowing them to browse and purchase products effortlessly. Using **Node.js** framework and utilizing a combination of **HTML**, **CSS**, and **JavaScript**, I developed an exceptional e-commerce website, with an intuitive interface, where users can easily navigate through product categories, and view detailed product descriptions. The website also incorporates secure payment gateways, ensuring transactions safety.

• **Data Managent System** **2023**

- **Framework:** Node.Js Express
- **Languages:** HTML CSS JavaScript
- **Description:** I developed a platform for users to effortlessly create and oversee their personalized data system for business purposes. This involved incorporating features to seamlessly add, edit, and remove products from a database, which can be accessed upon user login.

• **Online Games - PlayJS** **2023**

- **Framework:** Node.Js
- **Languages:** HTML CSS JavaScript
- **Description:** I built a platform where users can play retro and new videogames. The games are based only on HTML-CSS and JavaScript, and have been designed for PC use only.
